Mr Pickwick's Tour of the Cotswolds crosses the Evesham Vale, heading into Warwickshire for breakfast. Then traverses the Cotswolds from north to south & returns to Tewkesbury running across the Cotswolds from South Gloucs.

As the name suggests, Dr Foster's is a flat ride that goes to Gloucester via some Sustrans routes and canal paths, easily rideable on a road bike. It starts and finishes near Newport, just down the M4. Offers a gentle first crack at a 200.

The Three Counties rides are based on Evesham and include some nice scenery.

The rough diamond ride is based on the 2005 National 400 (only shorter!) and follows numerous river valleys. An ideal first 300.
