REMINISCENCE THERAPY

A Way To Remember

The Tiverton
Museum of Mid
Devon Life offers
Reminiscence
Therapy to Care and
Residential Homes.

Sessions are delivered in
Care Home settings by
trained staff using real
objects, magazines and
photographs.

Reminiscence Therapy has been shown to aid cognitive function, encourage memory recall and improve the health and well being of older people and those suffering with dementia.

Ten boxes are available each with a particular theme. Objects are carefully chosen to be both interesting and meaningful. Each box also contains ideas for follow-up activities.

Can be booked individually or as a set of sessions. Charges from £30. Contact the museum for details on 01884 256295.
