Travel to Work Survey 2016

- Survey runs from 7th -13th March (will stay open for an additional week for people on holiday).
- All 4 UAs participating.
- Registration opens on 1st February and runs til 22nd February. I will send you an email with details.
- Link to Survey and paper copies circulated from 22nd February – allow time to test internal IT systems .
- Email text will be sent out to participating companies to launch the survey on the 7th March.
- Promotional materials available – video, news story, pdf poster, powerpoint slide.
- Comments analysis, mapping and company reports.
- I will be main contact for SusCom members taking part.

Key Consultations:

Consultation Topic	Dates
Joint Spatial Plan & Joint Transport Strategy	9 Nov 15 – 29 Jan 16
MetroBus Extension – Parkway to Cribbs	27 Nov 15 – 15 Jan 16
MetroWest Phase 2 – Henbury station location	30 Nov 15 – 25 Jan 16
South Glos Cycle Strategy	30 Nov 15 – 15 Jan 16

Joint Spatial Plan and Joint Transport Study

- The West of England's four local authorities have launched a public consultation on a new Joint Spatial Plan and Joint Transport Study.
- Consultation runs from 9 November 2015 to 29 January 2016.
- Joint Spatial Plan will determine where new homes and workplaces will be built.
- Joint Transport Study will inform high level strategy and the delivery of major transport schemes.
- Both looking to 2036. Both influence each other.

Objective #1 Objective #2 Objective #3 Objective #4 Objective #5 Objective #6 Objective #7 Objective #8 Objective #9

#07 A GOOD TRANSPORT PLAN FOR BRISTOL

Create flexible and sustainable travel options for employees

Bristol's businesses are vital in helping to improve our city and its streets as they can enable employees to travel more actively and sustainably.

Businesses are already starting to recognise the needs of their workforce, providing flexible working hours and facilities like cycle parking and showers. In turn, they can benefit from an increasingly healthy and productive workforce and attractive working environment for their employees.

Across the region, employees are supported by behaviour change projects to help their staff travel more sustainably. Organisations across Bristol's North Fringe have worked together with North Bristol SusCom to reduce congestion by promoting sustainable commuting options to around 40,000 employees.

We can go further to support employers' efforts to make sustainable travel the first choice for their workforce. Businesses can talk with their employees to understand their travel needs and cater for them accordingly. From home working to flexible start and finish times, flexible working arrangements can give employees the option to avoid the daily commute at peak hours or altogether. Continued investment in communications technology can reduce the need to travel for meetings and commutes alike.

Promoting the benefits of more active and sustainable travel by organising walking meetings, cycle training and offering incentives to those who make sustainable trips can all help to establish a sustainable travel culture.

Establishing fleet management schemes and priority parking for multiple-occupied cars can reduce parking pressures on businesses and incentivise car sharing. Facilities like secure cycle parking, showers and subsidised public transport 24/7 make alternative options a simple and convenient choice for the everyday commute.

FUN FACT
Those who regularly cycle take on average one less sick day than those who don't cycle, saving the UK £128 million a year in reduced absenteeism

London School of Economics, (2011)
The British cycling economy - 'Gross Cycling Product' Report

North Bristol SusCom Update – Join My Journey Roll Out

The screenshot shows the top navigation bar of the 'Join My Journey' website. On the left is the 'joinmyjourney' logo. The main navigation area includes a search bar with the text 'Station Road, Clutton BS39 5RA, United King', a dropdown menu set to 'Aztec West', and a 'Search or reset route' button. To the right are links for 'Manage Profile', 'Messages (0)', and 'Logout'. Below the search bar is a distance scale from 50m to 1km, and a 'Type of journey:' section with buttons for 'All', 'Car', 'Walk', and 'Cycle'.

We have found 18 journey companions via your route

Click a pin to contact a potential journey companion, or modify your route to find more.

This section contains logos for 'ecoSURETY' (with the tagline 'Resolutely protecting your environment'), 'South Gloucestershire Council', and 'North Bristol SusCom'. To the right are three buttons for app availability: 'Available on the App Store', 'Get it on Google play', and 'Windows Store'.

North Bristol SusCom Update –

Go Ultra Low Cities bid

West of England was one of four UK cities to be awarded Go Ultra Low Funding.

- **London** - £13m to create “Neighbourhoods of the Future” – on street car charging infrastructure (street lighting), Low Emission Zone, free parking and traffic priority to plug-in owners.
- **Milton Keynes** - £9m to open a City Centre Vehicle Experience Centre, open up 20,000 parking bays for free to electric vehicles, co-brand bus lanes and Low Emission Lanes.
- **Bristol** - £7m to deliver 100+ new charge points, 100 new council fleet ULEVs, 2 exemplar charging hubs (one at UWE), improved parking availability for ULEVs, free parking for EVs in P&R sites, reduced taxi license fees for ULEVs, on street ULEV charging/parking trial, community demonstrator cars, 35 organisations pledging 100 new ULEVs.
- **Nottinghamshire and Derby** - £6m to install 230 charge points and discounted parking for ULEV owners, access to 13 miles of bus lanes along key routes, new business support programme to let local companies try before they buy.
- Plus £5m for smaller initiatives in Dundee, Oxford, York and North East Region.

Updates – All
