

Michael's Wood Memorials

It is the aim of the Estate to ensure that the natural beauty of Michael's Wood is maintained. Families will be asked to sign a document agreeing to adhere to some simple rules. Non-biodegradable tributes will be removed not less than 14 days after interment. The following memorials are available as permanent tributes:

Named Memorials

Portland Stone tablet. A beautiful, flat Portland Stone Tablet can be sourced from a quarry at Portland and hand-engraved by our stonemason to your wishes. The standard size for this stone is A3 (29.7 x 42.0cm, 11.69 x 16.53 inches). Price is dependent on the number of characters. Please provide us with your design and we will obtain a quotation. The lead-time for this memorial is 3-4 weeks.

Natural Wood Memorial. A beautiful piece of native wood from the Cholderton Estate, laser etched to your wishes by a resident craftsman and then naturally finished. Please provide us with your preference of wood together with your design and we will obtain a quotation.

Living Memorials

Trees. We place particular emphasis on the planting of native trees and shrubs that will benefit biodiversity. Please refer to our Tree List for further information.

Plants. Different types of plant will prosper in shaded, partially shaded and more open areas of the wood. Please refer to our Bulb List for further information.

Wildflower Seeds. We can provide small packets of wild flower and grass seed mix to sprinkle on and around a grave. Our high quality seeds have been carefully selected to flourish on our thin, lime-rich, chalky soil.
