

Priority 5 – Support for cultural and heritage activity

What the grants are for

These grants are for projects that promote, enhance and upgrade culture and heritage assets. The focus is to:

- grow the wider rural economy
- create a sense of local identity through raised awareness of the assets' importance
- help protect culture and heritage features against damage and degradation

The Culture and Heritage priority is for projects that make no charge. Projects that will generate an income should apply under either Priority 3 Support for Rural Tourism or Priority 4 Provision of Rural Services.

Who can apply

- landowners
- rural community groups
- local authorities in exceptional circumstances, where for example the local authority can show that the project and the funding required is in addition to their statutory requirement to provide this kind of activity and the project will be of benefit to farmers, landowners and/or rural communities

Please note where the activity will take place on an agricultural holding, this may be eligible for support under the Countryside Stewardship Scheme. Farmers and landowners should contact Natural England in the first instance to check eligibility of the project under Countryside Stewardship Scheme.

How much funding is available

If the grant amount is less than €200,000 then the grant rate can be up to 100% and is awarded under industrial de minimis state aid rules.* The minimum grant is £2,500. The maximum grant amount that will be awarded by the LAG is £150,000.

***Industrial de minimis state aid regulations** mean that a maximum of €200,000 (currently around £170,000) of public funds is available to an undertaking in any rolling period of 3 financial years. If you have had other public funding this may count towards the industrial de minimis aid amount and reduce the amount of money you can apply for from LEADER. Any industrial de minimis state aid received by linked businesses will count towards the industrial de minimis amount.

Basic Payment Scheme and Countryside Stewardship payments do NOT count towards the industrial de minimis limit.

- the costs of construction and / or restoration of buildings and other physical assets, including related costs such as architects and engineering fees

- the costs to enhance, restore and upgrade the cultural and natural heritage of villages and rural landscapes and high nature value sites
- the conservation of small scale built heritage
- the costs to enhance cultural and community activities
- investments to enhance venues providing cultural and heritage activity
- the costs of events linked to cultural activity

Costs could include:

- constructing, purchasing restoring or improving buildings
- buying new and second hand equipment and machinery

The following costs are also eligible, if they form part of a larger project being funded:

- architect, engineer or consultant fees related to the project (as long as these don't add up to more than 15% of the project's total eligible costs)
- buying or developing a dedicated piece of computer software (but not an off-the-shelf piece of software like Microsoft Office)
- patents, licences, copyrights or trademarks
 - landscaping, where this is part of the restoration or upgrading of a cultural heritage asset
 - development of marketing materials, but not their production or distribution

What isn't covered

See the [general list of costs which can't be claimed](#)
