DIRECTIONS TO HP:

As you all know by now, we encourage people to use sustainable transport, whenever possible, when travelling to our meetings. HP has excellent cycle parking facilities and electric car charging points are available for guests. There are car parking spaces available if you need to drive. If you need a lift or have space in your car please let me know and I can put people in touch with each other to arrange journey sharing.

Instructions on how to find HP are below (if you want to look it up on Google Maps type in "HP Bristol" – do not use the HP postcode, which I purposely haven't given you, as it will take you to either UWE or Cheswick Village).
